# Challenges and Needs in 2012 – 2013

The number one challenge we face this year is to preserve the quality of our school system during these trying economic times while also focusing on needs that must be met in 2012 – 2013.

- Continue to provide Scientific Research-Based Interventions (SRBI), Connecticut's response to the federal No Child Left Behind (NCLB) law, which mandates levels of intervention to meet student achievement needs in reading and math.
- Establish a preventative facility maintenance schedule to ensure a safe environment for students and staff and reduce the need for expensive repairs.

# The Development Process

- Step 1: Staff submits requests to Administrators. Concurrently, Building Administrators meet with Department of Building Services personnel to assess the needs for repair and maintenance and generate requests, as warranted.
- Step 2: Administrators, Director of Athletics & Recreation, and Building Services personnel review all submissions and develop a proposal for submission to the Superintendent based on current levels of need and what they feel is essential to promoting the achievement of students and maintaining our facilities. Business Manager conducts analysis of other factors related to cost of maintenance (e.g. contractual increases, insurance costs, etc.).
- Step 3: Administrators, Director of Athletics & Recreation, and Building Services personnel meet with Superintendent and Business Manager to discuss their submitted proposals.
- Step 4: Superintendent and Business Manager analyze needs as well as availability of grants and other potential sources of revenue to supplement expenditures.
- Step 5: Superintendent presents itemized estimate of the cost of maintenance of Stafford Public Schools to the Board of Education.

# Background Statement

The following itemized estimate of the cost of maintenance of Stafford Public Schools proposes a total increase of \$849,008, or a 3.3% over the approved budget for 2011 – 2012. As a result of the loss of the Education Jobs Fund Grant this year, the funding that has to be raised by taxes is \$1,422,572, or a 5.7% increase for fiscal year 2012 – 2013. Prior to this request, there has been a taxable increase of only \$342,551 to the Stafford Public Schools budget since June 30, 2009.

Some major factors affecting the itemized estimate of the cost of maintenance are the following:

- Loss of the one-time Education Jobs Grant funding in the amount of \$573,564
- Teacher contract that calls for a 1.75% raise in general wages with a step increase for those teachers not at maximum salary for 2012 – 2013. There was a hard freeze in 2010 – 2011 with a 0% increase and no step advancement, and in 2011 – 2012 a 1.25% raise in general wages with a step increase for those teachers not at maximum salary
- Self-insured medical insurance costs at a 6% increase, this would have been a 12% increase if we had remained fully insured
- Increase in fuel and diesel costs
- Increase in contractual transportation costs
- Budgeted Capital Improvement Projects (CIPs), which include expanding outside lighting at SMS, replacing the oil tank at SVS, refinishing the gym floor at SHS, replacing the radiator covers at WSS, repairing sidewalks district wide, and installing a scoreboard at the athletic field
- Savings in Pupil Services tuition costs
- Hard freeze for the 2012-2013 fiscal year in the newly-negotiated Administrators' contract with a 0% general wage increase and no step advancement
